My Respected Friend

G. Thompson — Think not because of the long silence on my part that we have abandoned the pleasant thought of a visit from you — Circumstances did not allow our plans to be matured as to your Lecture in our place — Mr Sansom at the Pro Meeting talked to me of the matter prospectively — The busy season among the Farmers is now nearly over for a time and I enter again into the matter with pleasure and no less a sanguine hope that we will be able to realize the object — I request to be informed as per "Standard" or "Liberator" that your health has recovered —

The Moral army cannot afford want of health at this time — We need unbroken ranks —

Doubtless our Mutual Friend Mr Sansom will inform you of my plan in reference to your visit among us as suggested in a Note to him — You will receive a duplicate of Programme as He has so Kindly acted for you on behalf of your Lecture — please Confer with him, and we hold ourselves ready to comply — please to give plenty of margin as to time, to do the thing well —

Resp — M. P. Linton

George Thompson Esq
